

Statement of Purpose

Excellent Care - Extraordinary People

Our mantra is '*Excellent Care - Extraordinary People*'. We will empower our *people* to deliver *excellent care* by resourcing them adequately, investing in their development, and providing dynamic clinical leadership. We will perpetuate an ethos of cherishing the *extraordinary* qualities of the *people* we care for, and the *people* who provide their care.

Our Goals

- Excellent care in a safe, warm, happy environment that is homely in scale.
- Innovation and collaboration to benefit our residents, colleagues, and community.

Our Values

Whilst striving for our goals we will uphold the highest standards of integrity, honesty, dignity, compassion, empowerment and respect of others.

- One standard of care – excellent. One cost for care – fair.**
- Cherish the extraordinary in all people.**
- Create a home from home.**
- A stronger team everyday.**

We know what excellent evidence-based healthcare is and we aim, at every turn, to make sure that the people who entrust us with looking after them, or their loved ones, receive the best care possible. We achieve this by investing in our people, who in turn provide excellent care, kindness and professional skills for those they look after.
